

Breakerless electronic ignition system

Fuse No. 4

Back-up lights
Air conditioning
Heated driver's seat
Relay, window lift

Legend

- A Resistor
- B Electronic module
- C Distributor
- D Ignition lock
- F Fuse box
- G Starter motor
- H Ignition coil

Current flows through electronic module, ignition coil primary winding is energized.

The electronic module interrupts current flow, ignition coil discharges (sparks) through the secondary winding.
